SHIPS' MAILS.

Mails will close at the Post Office as follow:—

FOR LONDON.—By the Autumnus, and Arab, this evening, at 6.

CUSTOM HOUSE.—Entered Outwards: January 29.—Wild Irish Girl, brig, 129 tons, Todd, for Melbourne.

H.M. schooner Bramble reports that gold had really been discovered at Whyheki, an island about 25 miles from Auckland; it was in large nuggets about a foot below the surface, which, together with silver and quicksilver appeared to be in large quantities. The Bramble spoke the Marquess of Roxburgh, Captain Field, in long. 160 east, lat. 33·20 south, with 220 tuns oil. H.M.S. Calliope left Auckland same day as the Bramble for Whyheki, having on board His Excellency the Lieutenant-Governor.

The Effort, from Wide Bay, brings 60 bales wool. The Frederick Griffiths and the Albion, hence, were going up the river as the Effort came down, the former on the 24th, and the latter on the 25th instant.

Thirty of the Chinamen by the Ganges proceeded to the Clarence River by the Phœnix last evening.

ATTEMPTED ROBBERY ON BOARD SHIP.—About two o'clock on Tuesday morning, the Custom-house Officer in charge on board the U. S. ship Nightingale, perceived a man lifting a case of tobacco through the skylight of the cabin. He seized him, but the fellow made a desperate resistance, and bit the officer's finger most severely. Before assistance could be procured he had sprung overboard, and was immediately picked up by two of his confederates, who were lying alongside in a boat, and who pushed out into the stream, and got clear off. The tobacco was saved, and the officers of the Nightingale, as well as of every other ship in harbour, will doubtlessly keep a sharper lookout when they know that such characters are lurking about. The marauder lost his cap in the struggle, and it is now in the hands of the Water Police. It is an expensive and stylish affair, and certainly not such a cap as is usually worn by midnight prowlers.

WATER POLICE OFFICE.—Upon the opening of this Court yesterday morning, Mr. Beit said, that he had again to complain of the complete falsification by the reporter of the *Sydney Morning Herald* of the proceedings before the Water Police Bench on Tuesday last, in so far as he (Mr. Beit) was concerned. He had a great mind to commit the reporter for contempt of court; and he then gave him warning that if he ever again misrepresented what he (Mr. B.) said on the Bench, he most certainly would commit him. Major Lockyer desired to be distinctly understood, as not concurring in any of the remarks which had fallen from Mr. Beit.—A case of stealing on board the brig Christina having been partially investigated, and remanded until this morning; Mr. Beit desired the Clerk of the Bench to issue circulars to such of the magistrates residing in Sydney who were interested in maritime affairs, requesting their attendance at a special meeting to be holden on Tuesday next at two o'clock, for the purpose of considering the practice of the Water Police Court in respect to giving liberty to runaway seamen to employ themselves; notwithstanding that their register tickets may have been transmitted to the registrar of seamen in London.

THE CENSUS OF NEW SOUTH WALES.

No. V.

WE now come to the tables under the head of

EDUCATION.

In analysing the returns of the Census of 1846, we were not able to derive from them any information as to the progress of education in the colony, that being the first instance in which the state of education had formed part of the census inquiry. We have now, however, an opportunity of ascertaining in what degree the population is more or less instructed in the arts of reading and writing than it was five years ago. But as this cannot be accomplished by merely taking the gross numbers, since these have of course been affected by the increase of population, we prefer giving here the proportions to each thousand of the whole.

The returns distinguish between the sexes, and also between persons under and above twenty-one years of age.

Let us first take the aggregates of both sexes, which for the population of the whole colony were in the following ratios:—

	1846.	1851.		
Cannot read	375	344	31	Dec.
Read only	162	171	9	Inc.
Read and write	463	485	22	
	1000	1000		

Here is highly satisfactory proof that our educational as well as our material interests have made no small progress. In each thousand of the population the number of persons who cannot read is now less than it was five years ago by 31; while the number of those who can read only is greater by 9; and of those who can both read and write by 22. In other words, the wholly illiterate are fewer in number than they were by more than eight per cent., while the educated or partially educated are more than they were by five per cent.

As we do not think it necessary in this place to distinguish between the sexes, which in point of education are nearly on a par, or were so when we entered minutely into the census returns of 1846, we shall notice only the distinction between persons above and persons below the age of 21. The respective ratios of these classes, male and female, to the total numbers of each class in the population of the whole colony, were as under.

UNDER 21 YEARS.

	1846.	1851.		
Cannot read	549	485	64	Dec.
Read only	175	192	17	Inc.
Read and write	276	323	47	
	1000	1000		

This is more favourable still. Of each thousand persons under age, the number who cannot read is less than it was five years since by 64; while the number of those who can read only is 17, and of those who can read and write 47, greater than it was. The decrease in the number of persons wholly uneducated has been at the rate, on their own numbers, of nearly twelve per cent.; while the increase of the more or less educated has been upwards of fourteen per cent.

ABOVE 21 YEARS.

	1846.	1851.		
Cannot read	244	207	37	Dec.
Read only	152	149	3	
Read and write	604	644	40	Inc.
	1000	1000		

The number of adults who cannot read shows here a decrease of 37 in each thousand of the whole; the number who can read only, a decrease of 3; and the number who can read and write an increase of 40.

Let us now look into the educational progress of the City of Sydney, not including its Suburbs, and taking only the two classes of minors and adults.

UNDER 21 YEARS.

	1846.	1851.		
Cannot read	469	418	51	Dec.
Read only	170	176	6	Inc.
Read and write	361	406	45	
	1000	1000		

These results are remarkable, as shewing that the progress of education within the city, has not been equal amongst persons under age to what it has been in the colony at large. The increase in the number of persons who can read only or read and write, has been, in the colony, 64, or more than fourteen per cent.; and in the city, 51, or less than ten per cent.

ABOVE 21 YEARS.

	1846.	1851.		
Cannot read	156	133	23	Dec.
Read only	131	109	22	
Read and write	713	758	45	Inc.
	1000	1000		

In the adult population of the city, the numerical increase in the number of persons who can both read and write has exceeded the increase in the whole colony; the latter having increased by 40 per thousand, and the former by 45. In proportion to their own numbers, however, the educated adults in the whole colony have rather gained on those of the city, but in a ratio of less than one per cent.

MR. ASSISTANT GOLD COMMISSIONER JOHNSON.

THE duties of the Assistant Gold Commissioners are not confined to the issuing of licenses for the digging of gold. From the instructions issued on the 23rd of May last to the Commissioner of Crown Lands for the gold district, we glean that the Commissioner was to organize a force of ten men to be placed under his orders for the purpose of carrying out the duties for which he was appointed. These ten men were to be armed, accoutred, and mounted, and to be furnished with other indispensable articles, on the model of the late mounted police.

In the instructions to the Assistant Gold Commissioners which followed, we find that each establishment is to consist of a clerk, of five mounted and five dismounted troopers, and a serjeant. Each Assistant Commissioner is to hold Courts of Petty Sessions at the place near to his head quarters, which may be proclaimed for that purpose. He is to carry out the general police business of his district, taking especial care that sly grog-selling and gambling, and other disorders, are as much as possible put down. The clerk of the Assistant Commissioner is to act as Clerk of Petty Sessions, and the serjeant of his party as Chief Constable, and their duties are to be those ordinarily belonging to such officers. Thus, then, it would appear that the functions of Police Magistrate are, in the case of the Gold Commissioners, to be blended with their duties as collectors of license fees; and if it had not been so intended, the Government would not have placed a company of ten men at each Commissioner's exclusive disposal. In addition to which, we observe by the gold returns that the colony is charged with the expense of one serjeant and ten troopers to each Assistant-Commissioner. Lastly we understand that it is the practice of the Commissioners invariably to be accompanied with some of their staff when absent from their station on duties connected with their employment. It will therefore perhaps excite some little surprise when we mention the indifference with which Mr. Assistant Commissioner JOHNSON lately received intelligence of an outrageous act of bushranging, and the total absence on his part of endeavouring directly or indirectly to apprehend the robbers.

Last Friday week, Mr. JOHN CARTER, as he was proceeding to Bathurst, was stopped on the Big Hill, about four miles from the Lower Turon, by two armed bushrangers, who, after sending a ball through Mr. CARTER's hat, and another into the head of his horse, robbed him of ninety-six ounces of gold dust, and twenty pounds in notes. We are apprised that on the afternoon of the robbery Mr. Assistant Commissioner JOHNSON arrived at Tamaroora Creek (four miles from the place at which Mr. CARTER encountered the bushrangers), accompanied by a trooper and GEORGEY SUTTOR, an aboriginal native; and that this outrage on Mr. CARTER, together with other circumstances which led to the suspicion that a murder had also been committed in that neighbourhood, were reported to Mr. JOHNSON. The visit of the Assistant Commissioner to Tamaroora Creek was to collect license fees, and though so near to the scene of attack on Mr. CARTER, Mr. JOHNSON neither went out himself nor sent his trooper nor GEORGEY SUTTOR in search of the robbers; at the same time, from the sagacity of the blacks, it is more than probable that some clue might have been obtained of them by tracking, if prompt and immediate measures had been adopted. Mr. JOHNSON having collected his license fees, returned the following day (Saturday) to Sofala, to report the circumstances of the robbery and supposed murder to Messrs. Assistant Commissioners GREEN and ZOUCH. It would seem that the duties of a Gold Commissioner are, first, that he is to collect the gold revenue and issue gold licenses; secondly, that he is to put down sly grog-selling, gambling, and other disorders; thirdly, that being a Justice of the Peace he is to hold Courts of Petty Sessions, and, as a magistrate, he is always to be on the alert to marshal his troopers in such a manner as to afford the completest protection to person and property; and, collateral to his duties, but of still greater importance to the public, he should act with the utmost vigilance in the prevention of crime, and—constituted as the diggings and their neighbourhood are—with the greatest activity and zeal in endeavouring to ensure the apprehension of criminal offenders. When Mr. Assistant Commissioner JOHNSON received information of the murderous attack which had been made upon Mr. CARTER, it was his duty to have left off collecting license fees, as they might have been collected at any time, and a day or two's delay could not have much prejudiced the revenue of the Crown, and instantaneously, with the assistance of GEORGEY SUTTOR the Black, scoured the country in search of the bushrangers; it was his duty with the available appliances at hand to have shown some inclination and exhibited some exertion on the occasion, and not left matters to chance and trusted to his brother Commissioners to have done what was necessary on the following day. The system of appointing young and inexperienced men as Assistant Gold Commissioners is more and more to be deprecated. Are there not men of mature age, of local knowlege, and of extensive experience to be found, who would not only command the respect of the diggers, but ensure something like a guarantee for the proper discharge of the duties of the united offices of Commissioner and Magistrate? Are the public to have thrust upon them young men who the deem collection of a few thirty shillings in payment for licenses of far greater importance than security against bushrangers? are the public to suffer by interest prevailing over merit, and influence over qualification? In the case of Mr. CARTER, the bushrangers were allowed time to escape; the ease with which they have been allowed to go their way without instituting pursuit, is giving them greater confidence in their marauding and murderous enterprises.

On referring to the Gold Returns, it appears that no less a sum than £8,811 12s. 5d., out of a revenue of £16,509 8s. 8d. was expended, up to the 31st of October, in consequence of the gold discovery. We find also that the gold revenue has increased, and up to the end of the year amounted to the enormous sum of £33,809 18s. 9d., an increase in the last two months of the year equal to the whole amount of revenue for the six preceding months. With a rapidly increasing revenue from such a source, it is the paramount duty of the Government to obtain the services of the best and most experienced men as Commissioners that money can procure. If the present staff of Commissioners' troopers be inadequate to proper protection, or if inefficiency exists in the department, the Government must apply the remedy; the public are not to suffer by indolence, indifference, and neglect. We are not the only portion of the Press who call the attention of the Government to this subject, our contemporary at Bathurst has brought the question before the public, and if the Government have really and truly the interest of the colonists at heart, they will not trifle any longer with the lives and property of those committed to their care, by placing them under the wing of inefficient, inexperienced, and indolent officers.

DOMESTIC INTELLIGENCE.

INSOLVENT COURT.

THURSDAY.

BEFORE S. F. MILFORD, Esq., Chief Commissioner of Insolvent Estates.

In the estate of John Terry Hughes, deceased, an adjourned second meeting was held. One witness having been examined at considerable length, the meeting was further adjourned until Wednesday next.

SYDNEY INFIRMARY AND DISPENSARY.

THE Annual Meeting of the subscribers to this institution took place last evening, pursuant to advertisement, in the School-room, Castlereagh-street.

The Chair was taken at 7 o'clock by the Hon. E. DEAS THOMSON, President of the institution; but we regret to say the meeting was but thinly attended.

The CHAIRMAN, in opening the proceedings, said that he found by the rules of the institution that an annual meeting was appointed to be held in the month of January of each year and that notice of the time of holding such meeting should be given sixteen days previously. This regulation having been complied with by the insertion of an advertisement in the newspapers of the 13th instant, signed by the Secretary, the Rev. Dr. M'GARVIE, calling a meeting for this evening, it became his duty now to call upon the reverend gentleman to read the draft of the Report which was intended to be submitted for the adoption of the meeting.

The SECRETARY then read the draft report, which was in substance as follows:—

The report commenced with congratulations to the subscribers on the state of the Institution, which, both as regards the amount of support afforded to it by the public and the means at its command for the furtherance of the objects of the Institution, is said to be in a better position than at any former period. The season being very unhealthy, together with demands on the institution in consequence of the gold discoveries, necessarily increase the responsibilities of the Institution. It is stated that there are two branches to the Institution:—one the dispensary, adapted to persons who have some means at their command, and dwellings in which they and their families reside, but who require advice and medicine, which are furnished to them by the district surgeon. By this means many persons who have formerly moved in a different sphere of life, but who have been reduced by misfortune or sickness, are relieved and prevented from falling into utter penury. The second branch of the Institution is the Infirmary, where persons suffering under acute diseases, accidents, and maladies of every kind admitting of cure or relief, are admitted on the recommendation of subscribers, or on the part of the government by the written authority of the Honorable Colonial Secretary. Under these circumstances the patient is supplied with food, clothing, comforts, cordials, and medicine. During the past year a commodious bath house has been erected, and the Institution is now possessed of hot, cold, and vapour baths, and every patient is obliged to undergo ablution before he is admitted into the wards. The rules of the Institution have also been revised with a view to the admission of a larger number of patients. On the first of January, 1851, there were 98 patients in the house, viz.—63 men, 34 women, and one child. The whole number of persons admitted into the house in 1851 was 1301, being 830 men, 325 women, and 48 children; 645 of these were medical cases, and 656 surgical cases. On the 1st of January last there remained in the house 78 men, 31 women, and 9 children. Total 118. Of the cases admitted during 1851, the fees were guaranteed in 806 cases; sent by subscribers, 275, and accidents and urgent cases, 122. In January the admissions were 120; February 109; March 104; April 92; May 99; June 78; July 91; August 77; September 111; October 107; November 94; December 121; showing January and December to be the most unhealthy months, and June and August the most healthy. Of diseases there were—abscess 54; consumption 37; delirium tremens 16; diarrhœa 37; disease of heart 24; erysipelas 9; fractures 40; fevers 22; inflammations 165; rhumatism 195; wounds, &c., 41; ulcers 87; contusions 46; burns and scalds 18. The following is the result of the treatments of the cases: Cured 759; relieved 219; discharged at their own request 31; incurable 8; dismissed for breaking the rules 10; sent to Benevolent Asylum, 15; sent to Tarban Creek, 1; absconded, 3; died, 137, being 98 men, 35 women, and 4 children. Of these 10 died within twelve hours of their reception; 11 on the second day, 10 on the third day, and 10 on the fourth day after their reception. In addition to the above fourteen persons died of organic disease of the heart; fifteen of pulmonary consumption; five of aneurism of aorta; eight from injuries and accidents; making a total of 83 moribund and incurable diseases. The increase of patients in 1851 above 1850 is stated at 126. The dispensary is conducted by four district surgeons, and the number of cases which had come under their attention was as follows:—Men, 875; women, 921; children, 471; total, 2267. The whole of the prescriptions amounted to—for men, 3659; for women, 3821; for children, 1650; making a total of 9130 prescriptions. The home cases were 402, and the visits 1620. The monthly state of disease in the dispensary during the year was in January, 176; February, 236; March, 177; April, 192; May, 165; June, 156; July, 155; August, 193; September, 225; October, 186; November, 205; December, 201: the greatest amount of disease occurring in February and September, and the least in May and July. The diseases had been—biliary derangement, 46; catarrh, 69; consumption, 33; diarrhœa, 60; dysentery, 82; dyspepsia, 113; disease of heart, 14; dropsy, 30; fever, &c., 59; fractures and dislocations, 14; inflammation, 145; rheumatism, 99; wounds, 31; ulcers, 88. The report concludes with an expression of thanks to the president, and other officers, ministerial and medical, of the Institution.

Mr. W. T. CAPE moved the first resolution, as follows:—"That the report now read be approved and printed, under the direction of the Directors of the Infirmary and Dispensary, together with the Treasurer's accounts, list of subscriptions, and list of diseases treated during the year 1851." He congratulated the meeting upon the rapid progress which had been made by this Institution, which he might call the sanitary guardian of our city. The report which had just been read stated that extensive accommodations had been provided for patients, and that a medical school, which had been so long desired, was now likely to be formed, which he sincerely hoped would meet with the countenance and support of the medical profession generally. It was a matter of surprise that this subject had not before commanded the attention which it well deserved, and he trusted that the example given by the clerical and legal profession would be followed. We were continually reminded by the accidents which occurred in the streets of our city of the importance and usefulness of this institution; and he was glad to observe that the list of subscribers contained the name of the Steam Navigation Company. This and other institutions of a like nature which employed a large number of labourers who were peculiarly liable to accident, were especially called upon to support such an institution. Another subject worthy of consideration was the expediency of appointing an officer to examine into cases of habitual drunkenness and lunacy, which were now dealt with by police magistrates and others who were in no way qualified to judge of the state of the unfortunate victims of these diseases, which he contended ought rather to be dealt with medically than penally.

Mr. MOUTRY seconded the resolution, which was carried unanimously.

Dr. ROSS moved the second resolution, as follows—"That the rules and regulations, as revised and approved by the Board of Directors, now presented to the meeting, be adopted as the future laws and regulations of the Sydney Infirmary and Dispensary." The revision of the laws had not been made in a hurry. It was not the result of theorizing but of practical experience. When the first rules were formed they had nothing but theory to guide them. They took for their guide the examples of similar institutions in England and Scotland. They had now, however, six or seven years' experience in this institution, and it had been for some time contemplated to revise the rules. It was intended to make this revision last year, but after mature consideration it was resolved to defer the alteration, and a sub-committee was appointed to consider the subject, consisting of the President, Vice-President, Treasurer, Secretary, Messrs. Smith, Longmore, and Dr. Ross. This sub-committee fully considered the subject, and drew up with great care such rules as their experience suggested. These rules were sent up to the committee, and were referred back to the sub-committee for some verbal alterations, and they were now presented to the general meeting in their revised shape. These rules made no fundamental alteration in the laws of the Institution, but merely referred to such matters of detail as the increased demands on the Institution required.

Captain DUMARESQ seconded the motion.

Dr. MACKELLAR opposed the motion, on the ground that under the existing laws it was necessary that all alterations in the rules should be suspended in the hall of the Institution for the information of members, for 15 days previous to such alterations being submitted to the general meeting. He also protested against the alteration proposed in the management of the funds of the Institution, which he considered was a fundamental alteration in the principles of the laws of the Institution.

It was explained that there was to be no alteration in the management of the funds of the Institution, as the preamble to the present laws was to stand as the preamble to those proposed.

Considerable discussion, mingled with some temper and personality, took place on the second objection started by Dr. Mackellar, and Dr. Aaron proposed an amendment "that the draft of rules be not considered by the present meeting." At the suggestion of the chairman, both the resolution and the amendment were withdrawn.

Archdeacon M'ENCROE moved the 3rd resolution, "That the thanks of this meeting be presented to His Excellency the Governor-General and the Legislative Council, for the aid afforded from the colonial revenue to the funds of the Institution during the year 1851." The reverend gentleman briefly referred to the satisfactory working of the Institution, and to the liberal conduct of the Government, without whose aid the objects of the Institution could not have been carried on. One remark he would wish to make, which was, that that class of persons who derived relief from such institutions ought to be called upon to contribute towards their support; and suggested particularly that all ships entering the harbour should be taxed for the establishment of a Mariner's Hospital for the reception of sailors requiring medical assistance.

Dr. M'FARLANE seconded the motion, and suggested that the same rule should apply to gold diggers, who could well afford out of their large earnings to contribute towards the funds of an institution from which they derived relief in cases of disease and accident.

After a short discussion the resolution was put and carried.

The Rev. G. KING proposed the 4th resolution, viz.:—"That the thanks of this meeting be given to the Directors for their services during the past year, that the Honorable E. Deas Thomson, Esquire, be requested to continue President of the institution; that Captain Dumaresq be requested to act as Vice-President; and that the following gentlemen be elected in the room of those who retire, viz:—The Rev. A. H. Stephen, Clark Irving, Esq., Samuel Peek, Esq., W. S. Moutry, Esq., Charles Cowper, Esq., William Long, Esq."

The Rev. Mr. BLAIN seconded the resolution.

Dr. MACKELLAR objected to several of the names mentioned, instancing in particular that of the Rev. Mr. Stephen, who was not a subscriber to the funds, and ought therefore not to be a member of the Committee.

The TREASURER stated his impression that the Rev. Mr. Stephen was a subscriber to the amount of £2; whereupon Dr. Mackellar begged leave to withdraw his objection, and the motion was put and passed.

The fifth resolution, as follows, was then moved by Mr. WRIGHT, and seconded by the Rev. Mr. LAUGHTON: "That the thanks of this meeting be given to the Rev. Dr. Ross, Chairman of the Weekly Committee, to the Rev. Dr. M'Garvie, Secretary, and to Thomas Woolley, Esq., Treasurer, for their valuable services in the active part they have taken in the affairs of the Infirmary and Dispensary, and that Dr. M'Garvie be requested to act as Secretary, and Thomas Woolley, Esq., to act as Treasurer during the year 1852.—Carried.

Dr. AARON made some observations, which, however, were cut short by the impatience of the meeting, and the motion was put from the chair, and passed.

Mr. C. KEMP moved the 6th resolution, as follows:—"That the thanks of this meeting be given to the medical officers of the Infirmary and Dispensary, for their valuable services during the past year." He bore testimony to the great care and attention bestowed by the medical officers of the institution on the patients who came under their care. Their time and patience was constantly called upon, and no other class of men he believed would be able to stand the continual drain upon their energies.

Mr. M'PHERSON seconded the resolution, and after some complimentary remarks from Mr. Robert Stewart, on the merits of the medical officers, it was carried unanimously.

On the motion of Captain MORIARTY, the President left the chair, which was taken by Captain DUMARESQ; and the thanks of the meeting were then voted to the Hon. E. Deas Thomson, for his able and impartial conduct in presiding over the meeting.

The PRESIDENT briefly acknowledged the compliment, and the meeting separated shortly before nine o'clock.

SYDNEY EXCHANGE COMPANY.

A MEETING of the subscribers to the Sydney Exchange Company was held yesterday afternoon, at the Exchange Rooms, to receive the report of the Provisional Committee, and dispose of other business connected with the Company.

Mr. J. S. WILLIS was called to the chair, who having stated that the meeting had been convened by circular and by advertisement, called upon the Secretary to read the report.

REPORT.

The provisional Committee appointed at a meeting of the shareholders of the Sydney Exchange Company on the 8th of April last for the purpose of preparing and obtaining an Act of Incorporation, and for communicating with the Government as to obtaining a grant of land as a site for erecting the proposed building have now to report: that they have fulfilled the duties undertaken by them under the resolution above quoted. They have obtained the Act of Incorporation and have communicated with the Government so far as to ascertain that a grant of land can be obtained for the purposes of the Company.

As to the Act of Incorporation your Committee engaged the services of Messrs. Young and Billyard to draw out and conduct the Act through the Legislative Council, which those gentlemen successfully accomplished. The Act was finally assented to by the Governor on the 19th December last; and the only remark which your Committee have to make on this subject is, that though they endeavoured to obtain a limitation of the liability to the amount of the subscribed capital, the limitation clause was altered in Committee, and the Bill finally passed, limiting the liability to double the amount of the capital subscribed, which is in accordance with the original agreement signed by the shareholders.

As to a grant of land: In accordance with the views expressed at last meeting, the Committee applied to the Government for a grant of the portion of land fronting Bridge-street, flanked on one side by Spring-street, and on the other side by the continuation of Pitt-street, and adjoining the residence of Archdeacon Cowper. The application was referred to the Surveyor-General, and in his absence the Deputy Surveyor-General recommended that the Government should, in preference, grant for the purposes of the Company, the triangular piece of land in Macquarie-place on which the Obelisk stands. The Government have accordingly intimated their willingness to grant this land to the Company for the purpose of erecting an Exchange. Your Committee, feeling satisfied that the land applied for by them would be preferred by the great majority of the shareholders have again addressed the Government, urging that the matter may be referred to the Surveyor-General's Department for further consideration, and after personal communication with the Colonial Secretary and the Surveyor General, they can now state with some confidence that there is reason to believe that the wishes of the shareholders on this subject will be acceded to, and a grant of the land applied for be obtained.

The Committee have made a call on the shareholders for a payment of ten shillings per share, as per original agreement, to meet the cost of obtaining the Act of Incorporation, and other preliminary expenses, and have collected the sum of 385l.

An account current is now laid on the table for the information of the shareholders, and by which it will be seen there is a balance in the Commercial Bank to their credit of 187l. 15s.

It will now be the duty of this meeting to give such instructions as may be necessary for calling up the subscribed capital, and otherwise to follow out the provisions of the Act of Incorporation.

The SECRETARY then stated that there were 123 shareholders who had taken 900 shares; of these, shareholders holding 770 shares had paid the call of 10s per share, amounting to £385: and 23 shareholders, holding 130 shares, had not paid the call of 10s. per share. The principal expense had been the payment of Messrs. Young and Billyard's account, amounting to £150. The balance in the bank was £115 to the credit of the company.

Mr. BREILLAT then moved, "That the Report now read be adopted, and the accounts as audited passed.

Mr. FAIRFAX seconded the motion, which was passed.

Captain DARLEY moved, "That the shareholders who have not paid the deposit of 10s. per share, be again applied to, and unless their subscriptions be paid up in twenty-one days, their shares be forfeited, and the committee be at liberty to re-allot them."

Mr. ENSWORTH seconded the resolution, which was adopted.

A resolution was then moved by Mr. Thomas WALKER, authorizing a call of £4 10s per share, in order that the provisions of the 15th clause of the Incorporation Act might be complied with, viz.,—that £5,000 of the capital of the company should be subscribed for before officers and directors were appointed, and building contracts entered into. An opinion was expressed that so large a call would induce many people to abandon their shares, while it could be of little practical benefit, as they could not proceed to build in the present state of the labour market. It was therefore suggested that the amount should be raised by three calls; one in March, one in June, and one in September; or that the call should be made now, but should be made payable by a bill at three months.

After some deliberation, however, it was considered that the 19th clause of the act, requiring £5000 to be subscribed for previous to calling a general meeting for the election of officers and directors, did not mean that the money should have been paid, but only that that amount of the capital was subscribed for. It was, therefore, deemed advisable that a general meeting should be called and directors and officers appointed, before considering the expediency of the call. A general meeting will in consequence be held on Friday, the 20th February, at 12 o'clock.

MR. ALFRED CANE'S DISSOLVING VIEWS.

A VERY pleasing exhibition of dissolving views and chromatropes took place on Wednesday evening, at the Royal Hotel. Mr. Cane, of the South Head Road, having recently received a large collection of excellent views from England, announced his intention of exhibiting them for the amusement of the public; and accordingly on Wednesday evening, notwithstanding the very unfavourable state of the weather, a large number of persons congregated to witness this somewhat rare spectacle. The series of views were well chosen, and the changes in some cases very effective; but our impression was that the light was deficient; several of the pictures being at times scarcely distinguishable, and representing a chaotic state of things quite puzzling to the spectator, notwithstanding the illuminated index on which the subject of each successive view was plainly enough inscribed.

The pictures which particularly attracted attention were "Newby Abbey," in which the effect of light and shadow was very beautiful. "Tintern Abbey" was another interesting view of the old ruins where the tourist loves to wander in the moonlight, and dream of bygone days when monks lived in those old cloisters, and revelled on the fat of the land, if ancient tales say true, nor wrong those holy men.

"A ship in a calm" was a particularly truthful representation of that most tedious, most trying, most wretched predicament. Gazing at the view, one might almost fancy one saw the lazy sharks crawling about in the blue water, carrying on their eternal war against every other creature, after their own *dolce far niente* tropical notions. Then suddenly the scene changed, the ship is caught in a storm, and with double-reefed foresail only set, struggles vainly against the furious surge, which too fatally drives her on to the inexorable rock. These two representations of the chances of the ocean were followed by "the ship on fire," and "the raft," and elicited several rounds of applause, especially from the juvenile portion of the audience, who, with true British feeling, seemed to delight in the danger, although 'twas but in show.

A very interesting picture of Balmoral Castle, her Majesty's residence in the Scottish highlands, was followed by "Windsor Castle." Both these views were good; the former having a peculiar interest from the associations connected with the mountain glens where the most popular and most worthy of England's sovereigns loves to breathe the free air for a season, and take rest from the cares of state.

"The Rising of the Nile," "Sidon from the Sea," "The Falls of Cydnus," and a variety of other very good views passed before our eye in rapid succession; among which we must not forget to mention a scene representing "Summer," which was dissolved into "Winter," (same subject) and that again into a snow storm, which, whatever might be its merit, appeared to the Australian spectator somewhat *outrée*. A variety of chromatropes ensued, the exhibition concluding with very so-so portraits of Her Majesty and Prince Albert, evidently painted shortly after the year one. Considering the immense number of excellent *recent* representations of the Royal Pair which exist, we really think something better than a cold delineation of "Victoria and Albert in their honeymoon days," in "their hey-day of youth," might have been presented to Her Majesty's loyal lieges of Australia.

Mr. Sigmont officiated on the piano. The exhibition will be repeated this evening.

A separate department is now established at the Colonial Treasury for the receipt and delivery of gold dust, to the head of which Colonel Gray, of Huntingdon, county of Macquarie, has been appointed. Yesterday, upon proceeding to hand over to the gallant officer the charge of the golden treasures, considerable inconvenience was experienced by finding it impossible to unlock the iron safe. Mr. Dawson, the engineer, who supplied the safe, was sent for, but his efforts to make the key perform its functions were unsuccessful; and, in the absence of a Hobbs and his incomparable picklocks, it seems likely that ponderous sledge-hammers must be brought into requisition to do that which the ingenuity of the locksmith cannot achieve.

COMMITTAL.—Isaac Brookbank was yesterday brought up pursuant to remand, and committed to take his trial for stealing three pair of upper leathers, the property of Mr. Riley, his employer.

ALLEGED ASSAULT BY THE POLICE.—The case of Robert Thompson against police Sergeant Watson and constables Clifton and Clarke, for an assault, was partially heard yesterday before Messrs. Dowling and Chambers, and postponed until Saturday. The prosecution is conducted by Mr. Gilbert Wright, and the defence by Mr. Nichols and Mr. Cory.

MONSIEUR AND MADAME GAUTROT'S CONCERT.—These talented *artistes* give a grand concert this evening under the patronage of the leading families of the city, at the theatre of the School of Arts. The programme includes selections from the works of Weber, Rossini, Pacini, Auber, Berlioz, Bishop, Horn, A. Moore, and other favourite masters. The vocal corps will include Miss Sara Flower, Mrs. Guerin, Madame Carandini, Madame Gautrot; and the Messrs. Howson. The orchestra of the Victoria Theatre, by permission of Mr. Wyatt, and the band of H.M. 11th regiment, by permission of Colonel Bloomfield and his officers, will form the powerful instrumental force. The solo performers are Mr. John Gibbs, violin; Mr. Stanley, pianoforte; Mr. Baly, flute; and Mr. Ducros, flautina.

GENERAL REMARKS.

Tuesday, 20.—Very light airs and breezes from S.E. and by E. throughout this day; clear delightful weather; night, calms and bright.

Wednesday 21.—Morning, moderate and pleasant breezes from S.E. and E., clouds light and partial; afternoon, wind freshened from N.E. and N. by E. towards evening, when clouds gathered over threateningly.

Thursday, 22.—Light or moderate northerly wind forenoon and middle part; a thick watery gloom hung around from after daybreak; between 8 o'clock and 11 misly rains, after that clouds broke, but again came in dark and stormy about 2 o'clock, and thunder storms, with rain, came over from N. by W. After 4 air became extremely close and muggy, and calms prevailed nearly all night; a hazy gloom over all, with much sultriness.

Friday, 23.—Calm morning, clear, and sun hot; gently N.E. breezes forenoon and middle part; then shifted to S.E., light wind and clear fine weather; at 9 P.M. south wind arose and blew in very brisk gales forenight.

Saturday, 24.—Forenoon, gentle breezes from E.S.E., veering E. to E.N.E., clouds thinly covered the sky A.M., then cleared away; P.M. wind freshened from N.E., and got to blow strong and gusty towards night.

Sunday, 25.—Morning, light north wind, foggy and drizzling rains from 7 to 8; after that breezes freshened, fog and scud from N., but partial blue sky across the zenith through the fore and middle parts. After 4 clouds formed thickly around; between 5 and 6, ranges of electric nimbus rose in the W., and extending in one arch from N. to S., passed over us, with a squall from W.N.W., and some thunder and lightning, casting a black shadow over the waters as they swept along; after this first brush succeeded an impervious watery gloom and rain; wind veered to westward and died away. Continued moderate rains at intervals during a great part of the night.

Monday, 26.—Light airs from N. and by W. till 7·30, and cloudy; after that, calms and light airs during the forenoon, with a warm mugginess towards noon; atmosphere very thick and dirty, and occasional spittings of rain. Just before noon wind set in from southward, and came on to blow very strong, and continued more or less so till towards sunset, veering a point to eastward. Clouds hung murkily all the afternoon, and some trifling rain before sunset. Evening, nearly calm; thick and dirty sky, and soft rains in the night from S.E.; after midnight, steady and constant.

HOUSEBREAKING.—Very late on Wednesday night, or early on Thursday morning, the shop of Mr. Waddell, Brickfield-hill, grocer, was feloniously entered at the fanlight over the door, which had been left open for purposes of ventilation, to which access had been attained by means of a ladder. A portion of a keg of tobacco (about 90lbs weight), and 15 boxes of No. 1 cigars, of 1851, were taken away.

PETTY SESSIONS. — BEYOND THE SETTLED DISTRICTS. — His Excellency the Governor-General has appointed Mr. Charles Toogood, to be Clerk of Petty Sessions at Dubbo.

SLAUGHTER-HOUSES. — His Excellency the Governor-General has appointed Sergeant Henry Rose, of the Gold Police, to be Inspector of Slaughter-houses and of cattle intended to be slaughtered, at and in the neighbourhood of Avisford, on the Meroo River.

ROADS.—With reference to the Government notice dated 18th November last, relative to the opening and making of parish roads from Clarence Town by way of Seaham to Dunmore and Hinton punts, notice is given in Tuesday's *Government Gazette*, that, after due consideration of an objection to the proposed road which was made in pursuance of the said notice, His Excellency the Governor-General, with the advice of the Executive Council, has confirmed the same, and it is therefore declared expedient to open and make the roads referred to, according to the maps or plan and book of reference, to be seen at the office of the Surveyor-General, in Sydney, and at the Post Office, Raymond Terrace; and all persons intending to claim compensation in respect of the said lines, are reminded that notice must be served upon the Colonial Secretary within forty days, or they will be for ever precluded from such claim.

THE MAJOR'S CREEK.—In reference to the remarks of our Braidwood correspondent, respecting the 382 acres of land recently purchased from the Crown, we have the authority of the proprietors for stating that instructions have been forwarded to their agent to join in the issue of licenses as heretofore.

GOLD PER BRIGHTMAN.—One small parcel only of gold was shipped by this vessel; viz.: 295 ounces from Messrs. Joseph Thompson and Sons.

STEALING ON SHIP-BOARD.—Duncan Mark Quin was yesterday put into the dock charged with having stolen the sum of £149 10s., the property of George Young, steward of the fore-cabin of the steamer Shamrock. The deposition taken at Twofold Bay before Mr. S. A. Donaldson, was put in and read. George Young deposed that he had in his drawer the sum of £149 10s., which he saw safe on the night of Sunday, and which at half-past five the next morning was missing; he suspected prisoner, because he of all men on board had the more opportunity, being engaged as assistant to complainant; he represented the circumstance to Captain Gilmore, who called up all the passengers and people in the forehold and instituted a search, but specially of the prisoner; in his possession was found £23 10s. in gold and £5 in silver; in a hat belonging to prisoner was found a note of the Bank of New South Wales for £50, which prosecutor could swear to as his; and £30 in gold was found in a small box placed in the bunk in the fore-cabin, which was used by prisoner, and out of which he was called when the search was instituted; in the same bunk three £1 notes were also found. Young swore to the identity of the £50 note, but of course could not swear to the coin. Captain Gilmore corroborated the evidence as to the finding of the £50 note in prisoner's hat; he was hired in Sydney by Captain Gilmore to work his passage to Melbourne as assistant to the steward. The defendant having nothing to offer in defence, was committed to take his trial at the Criminal Court, to be holden next week.

MASTER AND SERVANT. — A baker named Rubsamen, on Tuesday appeared before Messrs. Beit and Chambers to answer the complaint of a journeyman named Hilder, who claimed 40s. as two weeks' wages, which Rubsamen refused to pay. Mr. Driscoll, for defendant, stated, that in August last his client had made up a party to proceed to Bathurst, defendant having promised to remain and attend to his business during his absence. A few days, however, before his intended departure, complainant gave a week's notice to leave, which compelled his client to make other arrangements before he could proceed to Bathurst. This so incensed Rubsamen that he refused to pay the wages due, on the ground of complainant's breach of agreement. The Bench questioned complainant concerning Mr. Driscoll's statement, when he admitted that he had promised to remain at Rubsamen's on condition that he (the defendant) was away not longer than a fortnight, inasmuch as he was himself making arrangements to proceed to the diggings; he found, however, that Mr. Rubsamen's absence would be for an indefinite period, when, as his own party was nearly complete and fitted out, and wishing to leave rather before Rubsamen's departure than during his absence, he gave the week's notice which caused so much offence. Mr. Chambers said that as the wages were admitted to be due, they would have no alternative but to make an order for payment of the amount, though most certainly the complainant's conduct was very bad, and his bringing the case before the Court did him no credit. Mr. Beit did not see that complainant deserved the censure passed upon him by Mr. Chambers. He admitted that he had consented to remain if Rubsamen would undertake to be back in fourteen days; that undertaken was not given, and as he declined to remain for an indefinite period, under the changed circumstances of the establishment, he gave the required notice. Defendant did not deny that the wages were due, and the journeyman had as much right as the master to consult his own interest by proceeding to the diggings. If there had been a breach of contract by Hilder, Rubsamen had his remedy; but it could not be received as an answer to this complaint. An order was then made for the sum claimed.

PUBLIC SALES OF GOLD.—With reference to a paragraph which appeared in yesterday's *Herald*, in which it was stated, that the law officers of the Crown had given it as their opinion that gold sold by auction is liable to auction duties, notwithstanding the exemption by a recent statute, of colonial produce from such duties; we are now enabled to state the grounds upon which this opinion has been given. The statute in question, 14 Vic., No. 34, is intituled "An Act to exempt from duties all sales by Auction of Colonial Produce, and Sheep, Cattle, and Horses." And the preamble sets forth the desirability that every sale by any auctioneer or seller by commission, whether by auction, or by private bargain or contract, of any wool, tallow, hides, skins, or other produce the growth of the colony of New South Wales; and of all sheep, cattle, and horses, and of the station on which the same may be depasturing, shall be freed and discharged from the said rates and duties. The Solicitor-General submits, that taking a higher ground than the interpretation of the words "*other produce, the growth of the colony*," it is necessary to consider the intention of the Legislature in framing this Act; and he refers to its title, and also to its preamble, to show that the encouragement of the pastoral interest was the almost exclusive intention of the Council. He contends, that in the enacting clause, such indefinite words as "*any other produce*" would not have been inserted before the words "*the growth of the colony*," had other articles than wool, tallow, hides, skins, and similar pastoral produce been intended, when it was well known to the legislature that very many other articles did grow and were produced in the colony, and were likely to be sold by public auction. In the next place, the Solicitor-General relies upon the customary rule of construing statutes; and contends that where general or indefinite words follow, or precede, special ones, they must be taken to apply to such specialties. In the enacting clause of the Act in question, the words which precede "any other produce" being "wool, tallow, hides, skins," and the words which follow being, "sheep, cattle, and horses, and the right or supposed right of the owner of such sheep, cattle, or horses, to any demise or license for the occupation of any waste lands of the Crown;" the Solicitor-General submits that gold-dust cannot be admitted to be such "other produce" as the general words introduced into the clause were intended to apply to, and he therefore is of opinion that gold-dust is not exempted by the 14th Vict., No. 34, from duties when sold by auction. Inasmuch as this rule of construing statutes is one whereupon the highest legal authorities constantly differ, we think it will be scarcely fair to compel the Sydney auctioneers to pay now out of their own pockets the duties from which, according to their construction of the Act, they believed the gold-dust sold by them to be exempt. We find one high authority deciding that in a statute where "deans and all other clergymen" were mentioned "bishops" were not included in the provision; and another on the other hand deciding that a certain labourer *was* included in the meaning of "all other labourers," although it was distinctly shown that he was of a very different labouring class to that which had been named in the special words preceding the general ones. One of our metropolitan benches has been occupied for the last week in hearing the arguments of learned advocates as to this very mode of construing a clause which included special and general words, and the Bench not agreeing in opinion, the matter has been at last settled out of doors. Under all the circumstances, therefore, of the public sales of gold dust already effected, it appears but fair, as the auctioneers did not charge their constituents with auction duties, under a *bonâ fide* impression that such Colonial produce was freed therefrom under the Act of Exemption, that the Local Executive should forbear from insisting on a claim which can only now be paid at the loss of the auctioneers themselves.

BATHURST QUARTER SESSIONS.

FRIDAY, JANUARY 23.

PETER PAGE was indicted for stealing 10 pairs of trousers, 11 bags, and 10 lbs. of tobacco, the property of Mr. Samuel Lomax, storekeeper, of Meroo Creek, on the 14th of December last. The prisoner was defended by Mr. Sergeant. Verdict, guilty; sentence, three years' hard labour on the roads.

James Sutherland was indicted for surreptitiously obtaining the sum of £29 from Mrs. Rotton, on the 27th October, on the pretence that he had previously deposited that sum in her hands for safe custody. Mr. Thompson defended the prisoner. Attorney, Mr. Wadeson. It appeared from the evidence that the prisoner and a number of individuals arrived at Mr. Rotton's Hotel, by the Turon coach, on Saturday, the 25th October, when one of the party, a person named M'Cann, placed £30, (six £5 notes) in Mrs. Rotton's hands, requesting her to take care of it until he left town. On the following (Sunday) night Mrs. Rotton handed over the money to Mr. Rotton, less £1 for his account, directing him to give it to the owner, at the same time informing the prisoner of the arrangement. Acting upon the intelligence thus received the prisoner booked himself for Sydney on Sunday night, and made application for the money to Mr. Rotton, which he obtained, and started per mail the following morning. On Monday, about ten o'clock, M'Cane applied for his £30 to Mr. Rotton, who immediately recognised him as the person who placed it in Mrs. Rotton's hands. Upon discovery of the error Mr. Rotton took horse and started in pursuit of the mail, and reached Hartley shortly after its arrival. By dint of enquiry he found the prisoner at an accommodation house, from whom he demanded the money, but receiving an evasive answer, he immediately set about searching his person, and succeeded in obtaining £22 secreted, some in the toe of his boot, and a portion of it in his hat. As Mr. Rotton had been unable to learn anything of M'Cane since the transaction, he was under the impression that the whole affair was a plot between him and the prisoner to defraud him of the money. Verdict, guilty; sentence, two years' hard labour on the roads.

Henry Kelly, indicted for stealing a watch and a box, the property of John Barry, a digger, at the Devil's Hole, on the 8th ultimo, was found guilty, and he was sentenced to two years' hard labour on the public roads.

SATURDAY.

Peter Higgins was indicted for assaulting one George Rogers, at Sofala, on Saturday, 3rd instant, and preventing him from apprehending a man who had robbed him. The prisoner was defended by Mr. Thompson; attorney, Mr. Serjeant. Verdict, guilty. Sentence, twelve months' hard labour on the roads.

Michael Cavenagh was indicted for stealing six £1 notes, two sovereigns, and gold dust to the value of £10, the property of Schem Williams, on the 6th December, a miner at Golden Point. In defence the prisoner denied having committed the robbery, but acknowledged that he saw the robbery committed. The jury found him guilty without leaving the box, and he was sentenced to six months' imprisonment in Bathurst gaol.

Frederick Hyans, indicted for stealing from a dwelling-house at Sofala, was remanded to the ensuing session on account of the absence of the principal witness from sickness.

Lewis Cribb, a cook in the service of Mr. Rodd, was indicted and pleaded guilty to the charge of stealing a cheque for £8 11s. the property of his employer. The Chairman having read the depositions, and acquainted himself with the merits of the case, sentenced the prisoner to three years' hard labour on the roads.

Michael Walters was indicted for assaulting Dennis Gaynor, one of the gold police, at Sofala, on the 16th November, whilst in the execution of his duty. Verdict guilty. Sentence two years' hard labour on the roads.

James Oliver was indicted for robbing with violence Martin Parker, at the Turon, of £25, on the 6th December last. In cross-examination by the Chairman it transpired that Martin had said nothing of the robbery except to his mates until he saw the prisoner in custody as above mentioned, assigning as a reason for his conduct, the greater probability of detection. From the evidence of constable Croker it appeared that the prisoner was apprehended by him at Mundy Point, for fighting with a man whom he was abusing as an informer. The Chairman having summed up, Martin was recalled and further examined respecting the robbery, and by the unsatisfactory manner in which his replies were given, created a doubt in the minds of the jury as to the credibility of his evidence. They therefore acquitted the prisoner without leaving the box.

John Rosier and Mary M'Cann were indicted for stealing two blankets, the property of Mr. Whitton, and a watch, the property of Mr. H. Leigh, on the 19th November last. A second count charged the prisoners with receiving the same knowing them to be stolen. To both counts the prisoners pleaded not guilty. Rosier was defended by Mr. Serjeant, and M'Cann by Mr. Wadeson. The jury found a verdict of not guilty for Rosier, and guilty against Mary M'Cann on the second count. She was sentenced to twelve months' hard labour in Bathurst gaol.

John Sheppard was indicted on two counts, first for stealing a cheque for £7 the property of Mr. Thomas Graham, on the 26th December, and the second for receiving the same, knowing it to be stolen. The prisoner pleaded not guilty, and was defended by Mr. Wadeson. Verdict, guilty. Sentence, twelve months' hard labour on the roads.

MARRIED.

GOOD NEWS.
LARGE AND EXTENSIVE STOCK.
"GOLD!" "GOLD!!"

SAMUEL DAVIS, of the Australian Store, Goulburn, begs to acquaint his friends and the numerous arrivals for the Gold-fields at Tuena, Araluen, and Turl Turl, that his stock is the largest and most complete of any establishment out of Sydney, and that he is determined to sell at such prices as will render it impossible for any house, even in the great capital of New South Wales, to *compete* with him, everything being imported direct from the manufacturer, and bought for cash by his agent.

To attempt to enumerate the varied assortment would be impossible. His old friends are fully aware that *his* is the cheapest house in the southern district, and new comers will soon satisfy themselves that that character is well deserved.

Cradles, shovels, spades, and every description of digging apparatus can be got positively cheaper than at Sydney, or at any other store in the colony.

Wool, Tallow, Sheepskins, Gold, and other produce, bought for cash, in any quantity.

P.S.—S. D. is prepared to advance on Gold, and other produce consigned to his Agent in Sydney, who is sure to obtain the highest market price. Observe!

Casa Guidi Windows, by Mrs. Browning, 12mo., cloth.

Mrs. Browning's book is at once courageous and wise. Amidst the many who hold failure as disgrace, she has apprehended the right that *should* have triumphed. Through the obloquy of defeats she has recognised as heroes now men who will be so chronicled in the future. She has perceived by foresight what Posterity discovers through retrospect—that greatness unrevealed lacks its credentials—that martyrdom is the path to canonization.—*Athenæum.*

MONDAY, 2nd February.
IMPORTANT UNRESERVED SALE OF SYDNEY AND MAITLAND PROPERTIES.

MR. CHARLES NEWTON has received instructions from the Executors of the late Mr. Jacob Hinchcliffe to bring to unreserved sale, at his Rooms, on MONDAY, 2nd February, at 11 o'clock precisely,

The undermentioned Properties:—

LOT 1

Consists of an excellent brick-built HOUSE, the residence of the late Mr. Hinchcliffe, at the corner of Goulburn and Sussex streets.

This lot, from its excellent situation and large frontage to both streets (viz., Goulburn-street, 41 feet, and Sussex-street, 80 feet), is peculiarly adapted for a first-rate public-house, and would, at a very little outlay, be readily let for £150 per annum. There are four large good rooms on the ground floor, also kitchen, stable, coach-house, and a large yard.

LOT 2.—CHIPPENDALE.

An excellent COTTAGE, with large garden and outhouses, at Chippendale, near to Eveleigh House. This property has a frontage of about 80 feet to Somerset-place, and overlooks a large beautiful green. There is sufficient ground for at least six good cottages.

LOT 3. BOTANY ROAD.

This is a large corner allotment, close to the Botany toll bar; it has an extensive frontage to the Botany road and Botany street. There is only one small cottage erected on it, but there is ample room for at least twelve good houses. In the grant it is described as lots 1 and 2 on Wentworth's plan.

LOT 4, MAITLAND.

An excellent house and store in the flourishing town of Maitland, known as Anderson's Produce Store. This property cost the late Mr. Hinchcliffe upwards of five hundred pounds a very few years ago, and is now considerably improved.

LOT 5. PATRICK'S PLAINS.

One acre in the district of Maitland, described as all that piece or parcel of land, being part of an original Grant to John Grills, bounded on the South by Farley's land, six rods; on the North, Grill's land, twenty-six rods, twenty links; and on the West, by the occupation road, six rods; containing by estimation one acre more or less.

The whole of the above properties are unencumbered, and the titles good.

Particulars of title may be had from Messrs. Want, Solicitors, Pitt-street.

Terms—cash. 1220
